DETAILED ACTION

Election/Restrictions

1. Claims 1-16, 18, 20-52, 54 and 56-116 allowable. The restriction requirement of group II invention, claims 42-116, as set forth in the Office action mailed on September 29, 2004, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 42-116, directed to method of forming a large area semi-insulating gallium nitride is withdrawn from further consideration because the method of manufacturing a large area semi-insulating gallium nitride require all the limitations of an allowable generic linking claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

2. Claims 1-16, 18, 20-52, 54 and 56-116 allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art does not anticipate nor render obviousness as to a large area gallium nitride having a resistivity greater than about $10^5 \Omega\text{-cm}$.

Art Unit: 2823

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
